Summary

Hi, i'm a entry level Django developer.
I have been working with Python for two years and I got to know
Django about a year ago.
All my skills is in intermediate level but i still working to improve on
my skills more and more.
I'm also intrested in IOT and AI. But for now I'm focusing on
Django so that I can get to an advanced level and use them
together.Because I like the combination of the web and the
environment!!
